The Group, then, shall exercise its voting rights, and engage in dialogue with issuing companies and other parties regarding the content of the proposal.

At the Board of Directors meeting held in December 2020, the appropriateness of strategic shareholdings as of the end of March 2020 was examined through the specific examinations for each share which determined whether the purpose of holding was appropriate and whether the benefits and risks associated with holding were commensurate with the cost of capital. The Company designs the executive remuneration system by emphasizing its role in encouraging the Board of Directors to promote the sustainable growth of the Company and the enhancement of corporate value over the medium to long term and to improve profitability and capital efficiency.

Specific Director remuneration system and decision policies are defined in the Fundamental Policies on Corporate Governance. Remuneration for corporate officers comprises: (1) base remuneration, (2) bonus, which is remuneration reflecting short-term business performances, and (3) stock-based remuneration reflecting medium to long term improvements in corporate value. Decision on remuneration shall be made at the Board of Directors following the deliberation and reporting of the Compensation Committee.

The total remuneration amount shall be within the limit set by the resolution of a general meeting of shareholders. Based on the resolution of the 92nd annual general meeting of shareholders held on June 29, 2016, the total amount of (1) and (2) shall not exceed 700 million yen per annum and, separately from (1) and (2) above, (3) shall not exceed 570,000 points per fiscal year, where 1 point is generally equivalent to 1 share in the Company. Note that new granting of stock options has been discontinued as a result of the introduction of the stock-based remuneration system. Remuneration for Independent Directors comprises (1) only.

The total amount of remuneration for Audit & Supervisory Board Members shall be determined through the discussions of Audit & Supervisory Board Members within the limit set by the resolution of a general meeting of shareholders. The total amount of remuneration for Audit & Supervisory Board Members shall be 97 million yen or less per annum based on a resolution of the 82nd annual general meeting of shareholders held on June 29, 2006.

(b) Decision-making body for defining remuneration determining policy and its activities

Decision-making authority for determining amounts of remuneration for Directors of the Company or methods of calculation is vested in the Board of Directors and such decisions shall be made following the deliberation and reporting of the Compensation Committee.

The Compensation Committee consists of the Chairman, the President and all Independent Directors and has the role of deliberating on performance appraisal of the Directors and Group Corporate Officers, remuneration system and levels for Directors and Group Corporate Officers, analysis and evaluation of the effectiveness of the Board of Directors, and remuneration system and levels for Advisors, and to submit reports to the Board of Directors. The Compensation Committee held meetings twice in the fiscal year under review, deliberated on remuneration system and levels, and performance appraisal, etc. for the Directors, and submitted reports to the Board of Directors. Based on the reports from the Compensation Committee, the Board of Directors made decisions on matters regarding remuneration.

(c) Percentages of payment of performance-linked remuneration and other remunerations

Remuneration for Directors is comprised of (1) base remuneration that is fixed remuneration, and (2) bonus and stock-based remuneration that is performance-linked remuneration. The basic payment percentages are: fixed remuneration of 50%, bonus of 25%, and stock-based remuneration of 25% for Inside Directors and fixed remuneration of 100% for Independent Directors. Percentages of payment vary according to changes in bonus and stock-based remunerations, which are performance-linked remunerations.

(d) Methods of calculating performance-linked remunerations

(Method of calculating bonus)

Because bonus is remuneration reflecting short-term business performances, consolidated operating profit shall be used as an evaluation indicator for 70% of the base amount of bonus for each Director (excluding Independent Directors). For the remaining 30%, appraisal based on the business performance of each segment of which the Director is in charge is reflected. Each of the 70% and 30% portions fluctuates in the range of 0 to 150%.

(Method of calculating stock-based remuneration)

Stock-based remuneration is provided to further clarify the link between the remuneration for the Directors and the Company's business performance as well as the value of its shares and making the Directors share not only the benefits of higher share prices but also the risks of lower share prices with shareholders, thereby providing greater motivation to contribute to improving business performance and increasing corporate value over the medium to long term. In addition, as the Company aims for an expansion of corporate scale while maintaining a high level of quality as a medium to long term target, the ratio of payment of performance-linked stock remuneration is linked with consolidated net sales and consolidated ordinary profit, and fluctuates in the range of 0 to 150%.

Please refer to the Company's Financial Report for details on the performance-linked method of bonuses and stock remuneration.

V. Other

1. Adoption of Anti-Takeover Measures

Adoption of Anti-Takeover Measures	Adopted
------------------------------------	---------

Supplementary Explanation

(1) Fundamental Policies on Control of Company

Given that the Company’s shares have been listed on stock exchange and subject to free transactions by its shareholders and investors, the Company does not categorically reject even a large-scale purchase as long as it is based on a proposal that contributes to the corporate value and common interests of shareholders of the Company. With respect to such a proposal, the Company believes that the decision as to whether to respond to it should to be left ultimately to a judgment of its shareholders.

Under the management philosophies of “Creation of Innovative Value”, “Contribution to the future and the world”, and “Harmony with Nature and Society, the Group works to increase its corporate value over the medium to long-term as we proceed “beyond the boundaries”. Setting “Profitability Improvement of Domestic Business”, “Expansion of Overseas Business”, and “Promotion of Innovation” as the fundamental policies of the management strategy, the Group aims to become a global corporate group through “Contribution to a Sustainable Society”. Besides, as the largest owner of forests in the private sector, the Group regards sustainable forest management and the medium- to long-term maintenance and enhancement of public values of forests as one of its social responsibilities. With this in mind, the Company believes that providing appropriate information concerning a purchaser and securing an adequate period for consideration, including an opportunity to consider alternative proposals, are indispensable in order for shareholders to make an appropriate judgment when there was a proposal on a large-scale purchase. However, there may be some cases where the Company and its shareholders are not provided with sufficient time and information to study details of such proposals or alternative proposals, etc. In addition, there may be some proposals which do not contribute to the corporate value and common interests of shareholders of the Company, considering an aim of purchases as well as management policies after purchases. The proposals, for example, include those clearly infringe the corporate value and common interests of shareholders of the Company; those which have a sort of structure that could pressure shareholders into agreeing to purchases; or those with an objective probability to extremely harm the Company’s corporate value including its social credibility or to create extreme disadvantages to the Company’s shareholders.

The Company considers that any individual that conducts or makes a proposal on such large-scale purchases is not appropriate as an individual to manage decision-making of the Company’s financial and operational policies.

(2) Overview of the Policy to Address Large-Scale Purchase of the Company’s Shares (Takeover Defense Measures)

The Company has introduced the “Policy to Address Large-Scale Purchase of the Company’s Shares (Takeover Defense Measures)”, with an aim to prevent any individual that is judged inappropriate to manage decision-making of the Company’s financial and operational policies, according to the above-written “Fundamental Policies on Control of Company”, from actually doing it.

In concrete terms, the Company requests a large-scale purchaser who is about to purchase the Company’s shares that are equivalent to 20% or more of its voting rights, to comply with the Large-Scale Purchase Rules which aim to secure a period for gathering and studying information as well as an opportunity for offering alternative proposals. The Board of Directors of the Company evaluates and considers a proposal, taking into account whether a large-scale purchaser complies with the Rules, and whether a large-scale purchase causes a difficult-to-recover damage to the Company or a substantial loss to the interests of the Company’s shareholders as a whole. Then, the Board of Directors may voice an opinion as the Board of Directors, offer an alternative proposal to the Company’s shareholders, and, in some cases, take a countermeasure. In ensuring objectivity, fairness and rationality regarding this decision, the Company establishes the Special Committee which is independent from the Board of Directors and comprises 3 persons that include 2 Independent

Directors and 1 Independent Outside Audit & Supervisory Board Member. Although the final decision as to whether to take a countermeasure against a large-scale purchase or to hold a general meeting of shareholders to confirm the shareholders' intent on the decision is to be made by the Board of Directors, the Board of Directors is asked to maximally respect recommendations from the Special Committee. Having said, the Company shall unexceptionally hold the general meeting of shareholders to confirm the shareholders' intent, unless it is extremely difficult to do so, and follow the resolution passed on whether to take a countermeasure; when the Company has an intention to take a countermeasure even though a large-scale purchaser complies with the Large-Scale Purchase rules and only for a reason that a large-scale purchase act falls into a specific pattern.

For more details, please refer to "Continuation of Policy to Address Large-Scale Purchase of the Company's Shares (Takeover Defense Measures)", the document which was disclosed on May 25, 2020. The said document is available at the Company's website, <<https://www.ojiholdings.co.jp/english/ir/>>.

For your additional information, the continuation of the Policy until the conclusion of the last ordinary general meeting of shareholders within 3 years from the ordinary general meeting of shareholders held on June 26, 2020 was approved by shareholders at the ordinary general meeting of shareholders held on June 26, 2020.

For details of the current Special Committee, please refer to the disclosure document dated December 25, 2020, "Notice Regarding Partial Changes to Special Committee Members Based on the Policy to Address Large-Sale Purchase of the Company's Shares (Takeover Defense Measures).
