

Sarufutsu company-owned forest in Hokkaido, Japan

Management Philosophy

Creation of Innovative Value

Innovation is essential for the Oji Group to make a big leap forward. Changes must take place in the research and technological development leading up to revolutionary new products. At the same time, our organizational systems and the behaviors of each and every employee need to be transformed. We will promote “challenging manufacturing” based on novel ideas and fulfill society’s latent needs.

Contribution to the Future and the World

The Oji Group comprises a diverse range of businesses. We have grown into a global corporate group, with an overseas sales ratio of over 30%. The Group will continue to provide innovative value to all countries, regions, and societies and create a new future through proactive global expansion in Asian and other countries.

Harmony with Nature and Society

Sustainable resource circulation based on forest resources is the foundation of the Oji Group. We will advance our initiatives such that the business activities themselves contribute to a sustainable society. The initiatives include using vast areas of company-owned forest in and outside Japan for multiple purposes and seeking measures to reduce the environmental burden at manufacturing sites.

Corporate Slogan

“Beyond the Boundaries”

This slogan expresses the Oji Group’s commitment to actively go beyond the “boundaries” of business domains, countries, and the respective capabilities of individual employees to contribute to the future, society, and the world, as well as the determination of all Group members to maximize corporate value as a truly global company.

Purpose

Grow and manage the sustainable forest,

Develop and deliver the products from renewable forest

And

Oji will bring this world a brighter future filled with hope

The forest grown and managed sustainably not only absorbs and fixes carbon dioxide, but also mitigates floods, cultivates water sources such as water purification and prevents natural disaster in addition to its contribution to biodiversity, healing and health enhancement of people.

The products derived from wood utilizing forest resources are made of renewable materials and able to substitute for plastic, films and fuel derived from fossil resources.

Oji Group will confront global warming and environmental issues, and bring this world a brighter future filled with hope by growing and managing the sustainable forest and by developing and delivering the products utilizing renewable forest resources.
