The Oji Group has set "Profitability Improvement of Domestic Business", "Expansion of Overseas Business" and "Promotion of Innovation" as the fundamental policies of its FY2019-2021 Medium-term Management Plan. Through "Contribution to a Sustainable Society", we aim to become a global corporate group which stably maintains consolidated operating profit of more than ¥100.0 billion.

Based on the fundamental policies, in the domestic business, we have focused on restructuring our production system to respond to the structural changes in demand, and worked to improve capital efficiency while concentrating management resources on promising businesses to strengthen our ability to generate cash flow. In regard to overseas business, we have organically expanded the existing operations by expanding the number of overseas operations as well as developing new businesses utilizing existing infrastructure. We have also worked to create synergies among our businesses as well as operations. In regard to promoting innovation, we have promoted the development and the early commercialization of new businesses and new products that meet the needs of the environment and society, in order to actualize "Contribution to a Sustainable Society".

As the business environment has changed drastically due to the spread of COVID-19, consumption structure, lifestyles, and working styles have diversified, and many opportunities and risks are expected to expand. Meanwhile, we will continue to steadily implement strategic measures to improve our corporate value in line with our fundamental policies of management strategies in Medium-term Management Plan. We will also promptly and appropriately implement business structure reforms in light of environmental changes caused by COVID-19.

Consolidated net sales for the first nine months of FY2021 increased by ¥81.9 billion to ¥1,085.6 billion (year-on-year increase of 8.2%) due to a gradual recovery in demand resulting from the resumption of economic activities that had been stagnant due to the spread of COVID-19 and higher pulp sales prices. Overseas sales ratio increased by 4.0 points from the previous year to 32.3%.

Consolidated operating profit increased by ¥39.4 billion to ¥95.3 billion (year-on-year increase of 70.6%) due to increased sales volume, higher pulp sales prices, and cost reduction efforts throughout the Group, although raw materials and fuel prices have sharply increased. Ordinary profit increased by ¥53.2 billion to ¥100.8 billion (year-on-year increase of 111.5%) due in part to foreign exchange gains from revaluation of foreign currency-denominated receivables and payables as well as an increase in operating profit. Profit before taxes increased by ¥55.0 billion to ¥101.6 billion (year-on-year increase of 118.2%), and profit attributable to owners of parent increased by ¥40.5 billion to ¥66.6 billion (year-on-year increase of 154.9%).

Effective from the beginning of the first quarter of FY2021, Oji Holdings has applied "Accounting Standard for Revenue Recognition (ASBJ Statement No. 29, March 31, 2020)" and has changed the accounting method for revenue recognition. Please refer to "Consolidated Quarterly Financial Statements and Notes (Changes in accounting policies)" on page 8 of the attached document for more details.

(Changes in accounting policies)

(Application of Accounting Standard for Revenue Recognition, etc.)

"Accounting Standard for Revenue Recognition" (ASBJ Statement No. 29, March 31, 2020. Hereinafter "Revenue Recognition Standard") and related guidelines have been adopted from the beginning of the first quarter. In line with this adoption, revenue is recognized at the time of the transfer of controls for promised goods or services to customers in the amount that reflects the consideration to which they expect to be entitled in exchange for those goods or services. The main changes due to the adoption of the new accounting standard are in the accounting treatment of consideration paid to customers, such as sales incentives, and in the accounting treatment of transactions in which purchased goods are sold to customers. With respect to sales incentives and other consideration paid to customers, a portion of the expenses that were previously recorded in selling, general and administrative expenses are now reduced from sales. In addition, as for transactions in which purchased goods are sold to customers, revenue was previously recognized at the total amount of consideration received from the customer, but has partly changed to be recognized at the net amount received from the customer less the amount paid to the supplier.

In adopting the Revenue Recognition Standard, in accordance with the transitional treatment set forth in the proviso of Article 84 of the Revenue Recognition Standard, the cumulative effect of retrospective application of the standards prior to the beginning of the first quarter was added to or subtracted from retained earnings at the beginning of the first quarter. The new accounting policy was applied from the beginning balance of the first quarter.

However, Oji Holdings has applied the method prescribed in Article 86 of the Revenue Recognition Standard and has not retrospectively applied the new accounting policy to contracts in which almost all the revenue amounts were recognized in accordance with the previous treatment prior to the beginning of the first quarter. In addition, Oji Holdings has applied the method prescribed in Article 86, Paragraph (1) of the Revenue Recognition Standard, and accounted for contract changes made prior to the beginning of the first quarter based on the contract terms after reflecting all contract changes, and added or subtracted the cumulative effect of such changes to retained earnings at the beginning of the first quarter.

As a result, for the period of first nine months, net sales decreased by \(\frac{\pmathbf{4}}{37,139}\) million, cost of sales decreased by \(\frac{\pmathbf{4}}{14,974}\) million, selling, general and administrative expenses decreased by \(\frac{\pmathbf{2}}{22,042}\) million, non-operating expenses decreased by \(\frac{\pmathbf{4}}{30}\) million, operating profit decreased by \(\frac{\pmathbf{4}}{122}\) million, and ordinary profit and profit before income taxes decreased by \(\frac{\pmathbf{4}}{30}\) million. In addition, the balance of retained earnings at the beginning of the current fiscal year increased by \(\frac{\pmathbf{4}}{10}\) million. The impact on information per share is immaterial.

Due to the adoption of the Revenue Recognition Standard, "Trade notes and accounts receivable" which was presented in "Current assets" of the consolidated balance sheet for the previous fiscal year, is included in "Trade notes and accounts receivable, and contract assets" from the first quarter of the current fiscal year. In accordance with the transitional treatment set forth in Article 89-2 of the Revenue Recognition Standard, consolidated financial statements for past periods have not been reclassified using the new presentation method.

(Application of Accounting Standard for Fair Value Measurement, etc.)

"Accounting Standard for Fair Value Measurement" (ASBJ Statement No. 30, July 4, 2019. Hereinafter "Fair Value Measurement Standard") and other standards have been adopted from the beginning of the first quarter, and in accordance with the transitional treatment set forth in Article 19 of Fair Value Measurement Standard and Article 44-2 of "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10, July 4, 2019), Oji Holdings will continue to apply new accounting policies prescribed by Fair Value Measurement Standard and other standards into the future. The effects of this adoption on the quarterly consolidated financial statements are immaterial.
