**Continuation of Policy to Address Large-Scale Purchase of the Company's Shares**  
**(Takeover Defense Measures)**

Based on the approval given by shareholders at the 90th Ordinary General Meeting of Shareholders held on June 27, 2014, Oji Holdings Corporation (the "Company") has maintained its policy (takeover defense measures), for which the effective term lasts from the date of the said meeting until the conclusion of the 93rd Ordinary General Meeting of Shareholders to be held on June 29, 2017, (hereafter referred to as "this Ordinary General Meeting of Shareholders"), to address the purchase of the Company's share certificates, etc. (Note 1) for the purpose of a specific shareholder group (Note 2) purchasing 20% or more of the voting rights (Note 3) or the purchase of the Company's share certificates, etc. with the result that a specific shareholder group holds 20% or more of the voting rights (in either case, a purchase to which the Board of Directors of the Company has given its consent beforehand is excluded. Hereafter, such a purchase is referred to as a "Large-Scale Purchase," and one who engages in a Large-Scale Purchase is referred to as a "Large-Scale Purchaser") (hereafter, this policy is referred to as the "Policy").

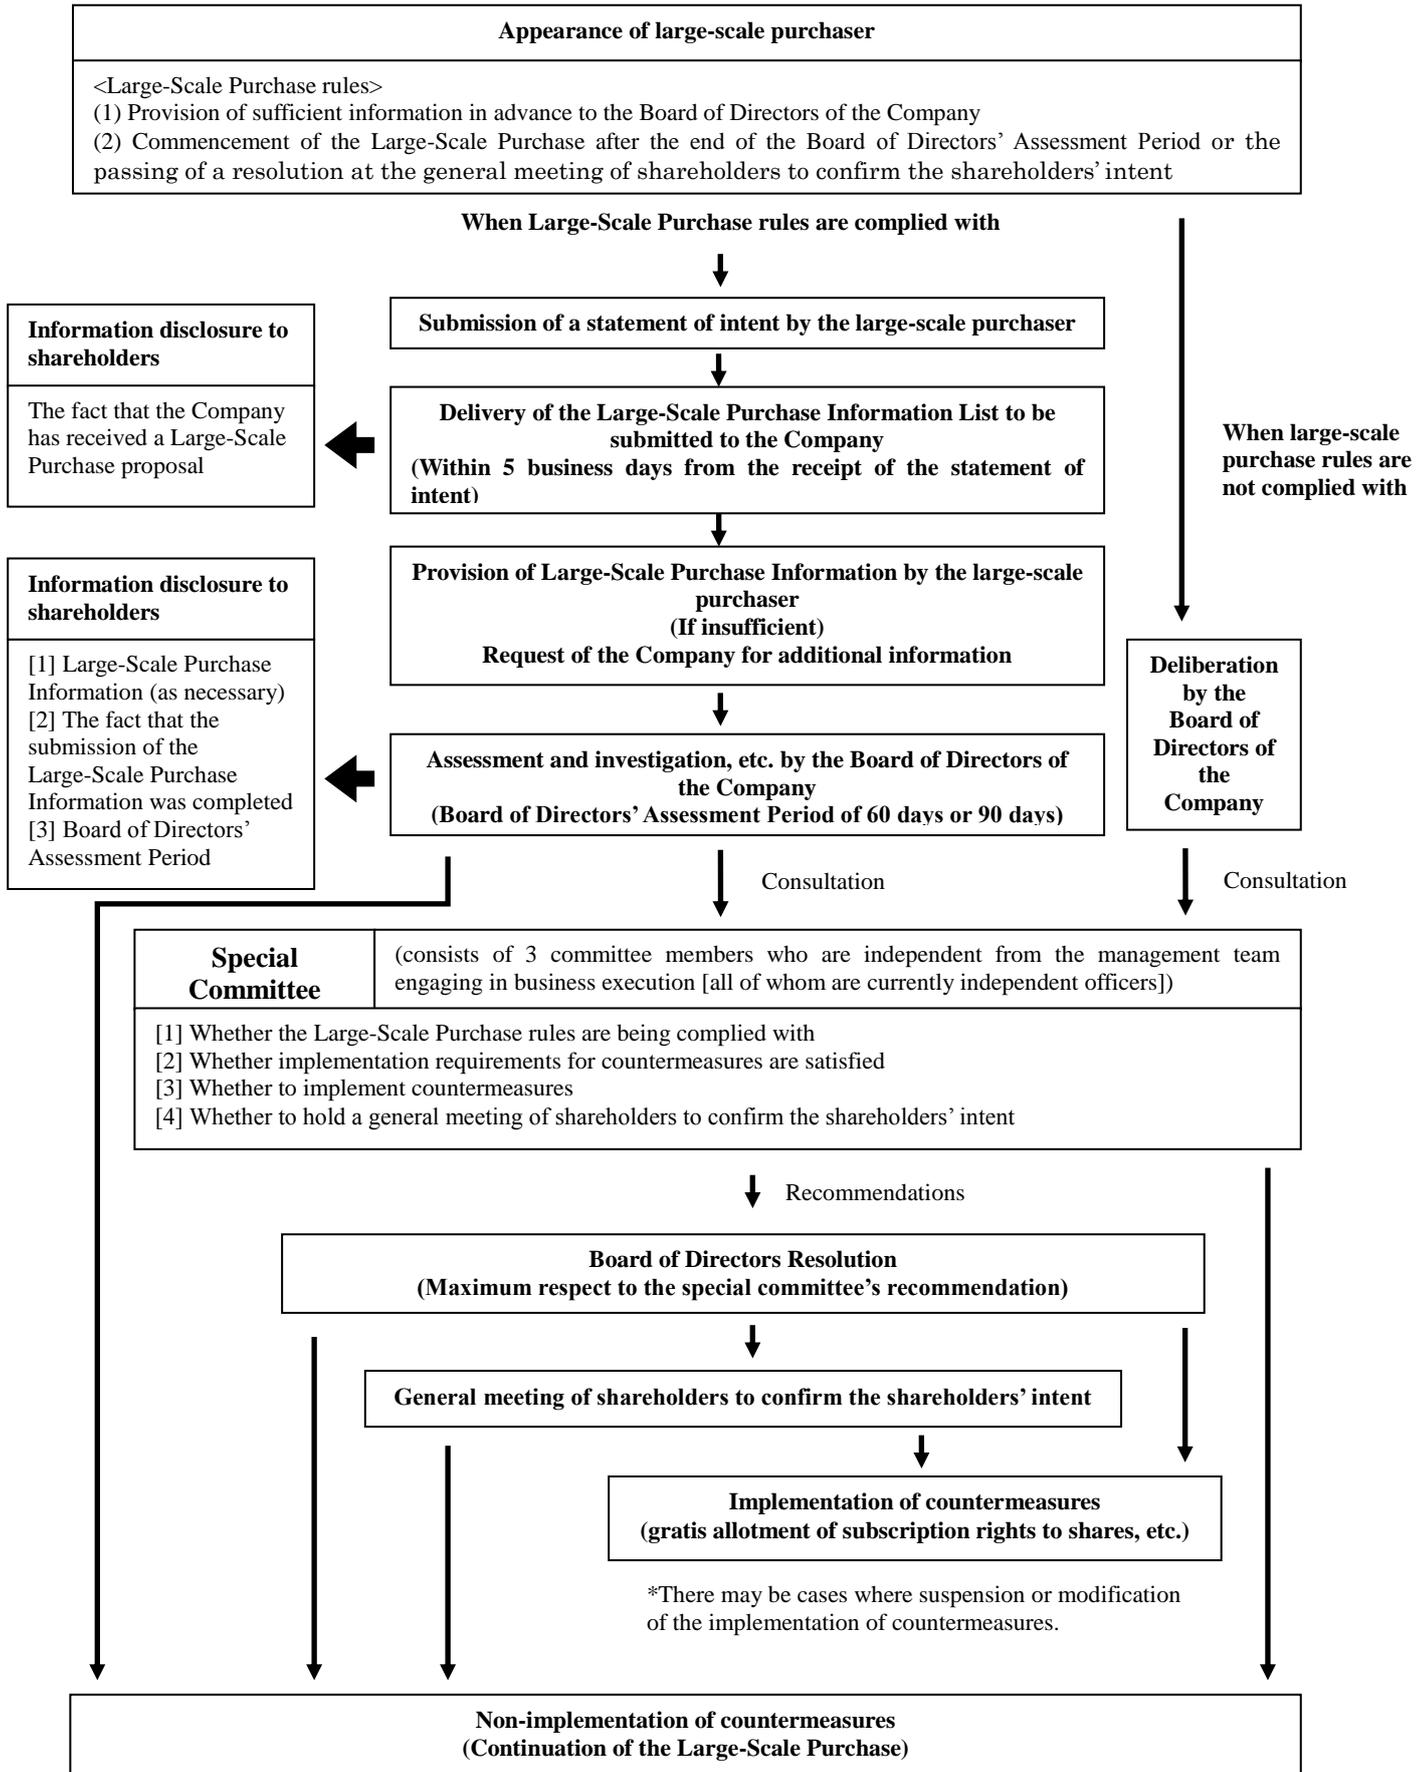

As the above-mentioned effective term of the Policy expires at the conclusion of this Ordinary General Meeting of Shareholders, the Company further reviewed it in view of, among others, the developments after the approval of the continuation of the Policy. The Company hereby announces that the continuation of the Policy with certain amendments was decided at the Board of Directors' meeting held on May 12, 2017, subject to the approval of the shareholders at this Ordinary General Meeting of Shareholders.

The details of the Policy as amended are stated below. The summary of main amendments and the conceptual diagram of the amended Policy are provided immediately below.

[Conceptual diagram of the amended Policy]

Furthermore, all Directors of the Company, including outside Directors, attended the Board of Directors Meeting held on May 12, 2017, wherein a resolution was passed on the amendment and continuation of the Policy. All Directors approved of the continuation of the Policy with certain amendments. Along with this, all Audit & Supervisory Board Members of the Company, including outside Audit & Supervisory Board Members, who were in attendance at the Board of Directors Meeting in question, also expressed their intent to pose no objection to the continuation of the Policy with certain amendments.

As of the present date, the Company has not received any proposal from third parties regarding Large-Scale Purchases of the Company's shares.

Note 1: Share certificates, etc. means share certificates, etc. prescribed in Article 27-23, Paragraph 1 of the Financial Instruments and Exchange Act and Article 27-2, Paragraph 1 of the same Act.

Note 2: Specific shareholder group means (i) the holder of the Company's share certificates, etc. (meaning share certificates, etc. prescribed in Article 27-23, Paragraph 1 of the Financial Instruments and Exchange Act) (such holder is prescribed in Article 27-23, Paragraph 1 of the same Act and includes persons included in holders based on Paragraph 3 of the same Article) and joint holders of the same (meaning the joint holders prescribed in Article 27-23, Paragraph 5 of the same Act and including persons deemed to be joint holders based on Paragraph 6 of the same Article) or (ii) the person and persons in a special relationship (meaning persons in a special relationship prescribed in Article 27-2, Paragraph 7 of the same Act) who undertake the purchase, etc. of the share certificates, etc. of the Company (meaning share certificates, etc. prescribed in Article 27-2, Paragraph 1 of the same Act) (such purchase, etc. is prescribed in Article 27-2, Paragraph 1 of the same Act and including purchases undertaken on an exchange financial instruments market).

When calculating the percentage of voting rights, reference may be made to the figures with respect to the total voting rights (meaning that prescribed in Article 27-2, Paragraph 8 of the same Act) and the total number of shares issued (meaning that prescribed in Article 27-23, Paragraph 4 of the same Act) provided in the Annual Securities Report, Quarterly Securities Report or Share Buyback Report, whichever is most recent.

## **1. Basic Considerations**

The Group is striving to achieve the enhancement of its corporate value by exploring "beyond the boundaries into the future," based on the three themes of the Group's management philosophy, namely, "Creation of Innovative Values," "Contribution to Future and the World," and "Harmony with Nature and Society" through the steady implementation of three objectives of "Expansion of Overseas Businesses," "Concentration and Advancement of Domestic Businesses," and "Enhancement of Financial Foundation." As the largest owner of forests in the private sector, the Group is carrying on its corporate activities in harmony with the environment under its policy of the promotion of environmental management. The

Group regards sustainable forest management and the medium- to long-term maintenance and enhancement of public value of forests as one of its social responsibilities.

Within this environment and against the backdrop of the development of Japanese legal system, changes in the business environment, etc., it can be anticipated that, in the future, a Large-Scale Purchase will be undertaken with the objective of acquiring control of the Company.

The Board of Directors of the Company does not reject even a Large-Scale Purchase as long as it is based on the takeover proposal, etc. that contribute to the corporate value and the common interests of the shareholders of the Company. Provided that appropriate information is provided by the purchaser and an assessment period is secured including the opportunity to evaluate alternatives to allow shareholders to make informed decisions, the Company believes that shareholders should ultimately make their own decision on such a proposal by accepting or not accepting the purchase offer.

However, in not a few cases, such a Large-Scale Purchase does not actually contribute to the corporate value of the target company and eventually the common interest of its shareholders. Example of such Large-Scale Purchases include the one whose purpose, etc. is clearly detrimental to the corporate value of the target company and the common interest of its shareholders, the one that effectively forces the shareholders to sell their shares, and the one that does not provide sufficient time or information for the Board of Directors or the shareholders of the target company to examine the terms and conditions of the Large-Scale Purchase or for the Board of Directors of the target company to make alternative proposals. Accordingly, with respect to Large-Scale Purchases that would impact the management of the Company, the Company believes the suitability of these purchases should be judged in accordance with certain rules.

The Board of Directors of the Company continues to maintain this fundamental approach and, as follows, sets rules regarding Large-Scale Purchases of the Company's shares (hereafter referred to as the "Large-Scale Purchase Rules"), and requests compliance with the Large-Scale Purchase Rules from Large-Scale Purchasers. The Board of Directors of the Company has a policy of taking certain measures in the event that a Large-Scale Purchaser does not comply with the Large-Scale Purchase Rules. The Board of Directors of the Company also has a policy of taking certain measures when it is clear that the Large-Scale Purchase will cause damage from which it will be difficult for the Company to recover or in cases where the interests of the Company's shareholders as a whole will suffer significant damage.

An overview of the status of holdings of the Company's shares is presented in Appendix 1.

## **2. Establishing Large-Scale Purchase rules**

To the Board of Directors of the Company, a Large-Scale Purchase conducted in accordance with the Large-Scale Purchase rules prescribed below shall be considered to be in accord with the interest of the Company's shareholders as a whole. These Large-Scale Purchase rules require (i) the large-scale purchaser to provide the Board of Directors of the Company with sufficient information in advance and (ii) any Large-Scale Purchase to be commenced only following the passage of the Board of Directors' Assessment Period (or, if a general meeting of shareholders to confirm the shareholders' intent (defined in 3.(5) below; the same shall apply hereinafter) is held, after the conclusion of such a meeting).

Specifically, first, the Company shall have the large-scale purchaser provide to the Board of Directors of the Company sufficient information required for the Company's shareholders to make a judgment and for the Board of Directors to form an opinion (hereafter, this information is referred to as the "Large-Scale Purchase Information"). Specifics are defined in Appendix 2.

As the concrete details of the Large-Scale Purchase Information may vary based on the details of the Large-Scale Purchase, when a large-scale purchaser intends to undertake a large-scale purchase, the Company will first have the large-scale purchaser submit to the Company a statement of intent to comply with the Large-Scale Purchase rules. In the statement of intent the Company asks that the name, address, governing law of incorporation of the large-scale purchaser, the name of its representative, and domestic contact information of the large-scale purchaser, and outline of the proposed Large-Scale Purchase be clearly indicated. Within five (5) business days following receipt of this statement of intent, the Company shall deliver to the large-scale purchaser a list of the Large-Scale Purchase Information which should be submitted to the Company by the large-scale purchaser.

In the event that it is considered that the information initially submitted alone is insufficient as Large-Scale Purchase Information, the Company may have additional information submitted until the Large-Scale Purchase Information is sufficiently complete.

The Board of Directors of the Company shall promptly disclose the fact that there has been a Large-Scale Purchase proposal. Additionally, the Large-Scale Purchase Information submitted to the Board of Directors of the Company shall be disclosed in full or in part in a timely manner if it is deemed necessary for the Company's shareholders to make a judgment.

Next, in accordance with the degree of difficulty of the assessment, etc. of the Large-Scale Purchase, a sixty (60)-day period (in the case of the purchase of all the shares of the Company through a public tender offer only for cash (yen) consideration) or a ninety (90)-day period (in the case of other Large-Scale Purchases) after the completion of submission of the Large-Scale Purchase Information shall be set aside as a period for the assessment, investigation, negotiation, opinion formation, and the preparation of alternative proposals by the Board of Directors (hereafter referred to as the "Board of Directors' Assessment Period"). The Board of Directors of the Company shall promptly disclose the fact that the submission of the Large-Scale Purchase Information was completed and matters relating to the Board of Directors' Assessment Period. The Large-Scale Purchase shall be commenced only following the passage of the Board of Directors' Assessment Period (or, if a general meeting of shareholders to confirm the shareholders' intent is held, after the conclusion of such a meeting).

During the Board of Directors' Assessment Period, the Board of Directors of the Company, while receiving the advice of outside experts, shall make a sufficient assessment and investigation of the submitted Large-Scale Purchase Information and shall disclose an opinion as the Board of Directors. As necessary, the Board of Directors may negotiate with the large-scale purchaser concerning improvements in the terms of the Large-Scale Purchase and may also present, as the Board of Directors of the Company, alternative proposals to the shareholders. Additionally, the Board of Directors of the Company shall submit the Large-Scale Purchase Information to a special committee and request an assessment and investigation of the information. The special committee shall undertake its own assessment and investigation of the Large-Scale Purchase Information and shall make a recommendation concerning the measures of response which the Board of Directors of the Company should take in accordance with the Policy. The Board of Directors of the Company shall take the special committee's recommendation into consideration and shall determine a measure of response that complies with the Policy while giving maximum respect to that recommendation.

### **3. Policies in the event of a Large-Scale Purchase**

#### **(1) When a large-scale purchaser does not comply with the Large-Scale Purchase rules**

When a large-scale purchaser does not submit a statement of intent, when a large-scale purchaser commences a Large-Scale Purchase prior to the passage of the Board of Directors' Assessment Period, when a large-scale purchaser does not provide sufficient information in accordance with the Large-Scale Purchase rules, or when a large-scale purchaser otherwise does not comply with the Large-Scale Purchase rules, the Board of Directors of the Company shall, for the purpose of protecting the interests of the Company's shareholders as a whole, take measures, such as the issuance of subscription rights to shares, deemed to be within the authority of the Board of Directors by the Companies Act, other laws and the Company's Articles of Incorporation and may oppose the Large-Scale Purchase. The Board of Directors of the Company shall, in advance of deciding to implement countermeasures, consult the special committee concerning the appropriateness of the implementation of the countermeasures and shall receive the special committee's recommendation. While giving maximum respect to the recommendation of the special committee, the Board of Directors of the Company shall make a decision on the implementation of the countermeasures having referenced the opinions of attorneys, financial advisors and other outside experts.

With respect to concrete countermeasures, measures deemed appropriate at that time shall be selected. An outline of the case where subscription rights to shares are issued based on a shareholder allotment as a concrete countermeasure shall, as a general principal, be as set forth in Appendix 3. In the event subscription rights to shares are issued, the exercise period, exercise terms and acquisition terms may be established having given consideration to their impact as a countermeasure, such as making the exercise terms and acquisition terms of the subscription rights to shares so as not to vest in a specific shareholder group that has a certain percentage or more of the voting rights.

The establishment of these Large-Scale Purchase Rules and countermeasures in the event that a Large-Scale Purchaser does not comply with said rules are deemed to be a fair and appropriate response for the purpose of protecting the rightful interests of the Company's shareholders as a whole. Contrarily, it is possible that, through the countermeasures, a Large-Scale Purchaser that does not comply with the Large-Scale Purchase Rules may ultimately experience detrimental effects including economic losses. May this serve as advanced warning against commencing a Large-Scale Purchase in disregard of the Large-Scale Purchase Rules.

#### **(2) When a large-scale purchaser complies with the Large-Scale Purchase rules**

With respect to the purchase of the Company's shares on a scale that may have an impact on the management of the Company, the purposes of the Large-Scale Purchase rules, from the perspective of protecting the interests of the Company's shareholders as a whole, are to provide information necessary for shareholders to make a judgment whether to accept such a purchase, to provide shareholders with the assessment and opinion of the Board of Directors of the Company who are actually responsible for the management of the Company and, furthermore, to ensure that there is an opportunity for shareholders to be presented with alternative proposals. When the Large-Scale Purchase rules are being complied with, these rules are not, as a general principle, in place to inhibit the Large-Scale Purchase simply on the judgment of the Board of Directors of the Company alone.

However, exceptionally, even though a large-scale purchaser complies with the Large-Scale Purchase rules, when the Board of Directors of the Company judges, having referred to the opinions of attorneys, financial advisors and other outside experts and having given maximum respect to the recommendation

of the special committee, that it is clear that the Large-Scale Purchase will cause damage from which it will be difficult for the Company to recover or the interests of the Company's shareholders as a whole will suffer significant damage, measures set forth in (3) (1) above may be taken in order to deter the Large-Scale Purchase (provided, however, that if a general meeting of shareholders to confirm the shareholders' intent has been held, the Board of Directors of the Company shall make a decision in accordance with the resolution passed by the general meeting of shareholders to confirm the shareholders' intent). Timely and appropriate disclosures shall be made in the event it is decided to take such countermeasures.

Concretely, when acts are deemed to fall within the patterns below, the Company shall consider, as a general principle, the Large-Scale Purchase to fall within cases where it is clear that the purchase will cause damage from which it will be difficult for the Company to recover or cases where the interests of the Company's shareholders as a whole will suffer significant damage.

- (i) When purchases clearly infringe on the interests of shareholders as a whole due to acts listed in the following [1] to [4], etc.
  - [1] Act of buying up shares and demanding that the Company buy those shares at a high price
  - [2] Act of taking temporary control of the Company and engaging in management to realize the profits of the purchaser to the detriment of the Company, such as acquiring important assets, etc. of the Company at a low price
  - [3] Act of appropriating the assets of the Company to secure the debts or to be a source for repayment of the debts of the purchaser or its group companies, etc.
  - [4] Act of taking temporary control of the Company management, disposing of high valued assets, etc. without immediate relation to the business of the Company, and paying out a temporarily high dividend with the profits from that disposal, or watching for an opportunity for a rapid increase in stock prices caused by the temporarily high dividend to sell off shares
- (ii) When it is objectively probable that purchases will effectively force shareholders to sell shares, such as coercive two-tiered tender offers (meaning the purchase of shares such as in a public tender offer under which the second stage purchase terms are disadvantageously set compared to the initial purchase terms or the second stage purchase terms are left ill-defined)
- (iii) When the proposed Large-Scale Purchase falls under any the following [1] to [3], thereby involving the objective probability that it will significantly impair the corporate value of the Company including its social credibility or cause significant disadvantages to the shareholders of the Company:
  - [1] The management policy, business plan, etc., to be adopted after the large-scale purchaser acquires the control of the Company are extremely irrational or inappropriate;
  - [2] It is objectively probable that a significant problem will arise in relation to environmental preservation, compliance, or the transparency of governance with respect to the management policy, business plan, etc., to be adopted after the large-scale purchaser acquires the control of the Company; or
  - [3] It is objectively probable that the disclosure of information about the large-scale purchaser will be insufficient and inappropriate from the perspective of the protection of the shareholders of the Company.

### (3) Suspension after implementation of countermeasure

Even after the decision to take countermeasures in accordance with the Policy, the Board of Directors of the Company may decide to suspend the implementation of the countermeasures, having given maximum respect to the recommendation of the special committee, (i) when the large-scale purchaser halts the Large-Scale Purchase and (ii) when there is a change in the relevant facts, etc. upon which the determination to take countermeasures were premised, and it is judged that the Large-Scale Purchase will not cause damage from which it will be difficult for the Company to recover, and furthermore, will not significantly damage the interests of the Company's shareholders as whole (provided, however, that if a general meeting of shareholders to confirm the shareholders' intent has been held and a resolution supporting the suspension of the implementation of countermeasures has been passed at the meeting, the Board of Directors of the Company shall make a decision in accordance with the resolution passed by the general meeting of shareholders to confirm the shareholders' intent).

In the case of, for example, a gratis allotment of subscription rights to shares as a countermeasure, when circumstances have arisen, such as the large-scale purchaser withdrawing the Large-Scale Purchase, after the determination of shareholders who should receive an allotment of rights and the Board of Directors judges, having considered the recommendation of the special committee, that the implementation of countermeasures is inappropriate, the gratis allotment of subscription rights to shares may be suspended during the period up to the effective date of the subscription rights to shares or, during the period after the gratis allotment of the subscription rights to shares up to the start of their exercise period, the Company may acquire the subscription rights to shares without consideration and suspend the implementation of the countermeasures.

In the event that the implementation of countermeasures is suspended as noted above, information concerning this will be promptly disclosed along with matters deemed necessary by the special committee.

### (4) Establishment of special committee and investigation thereby

In the Policy, in order to ensure the objectivity, fairness and rationality of the judgment of the Board of Directors when judging whether the large-scale purchaser has complied with the Large-Scale Purchase rules, whether the Large-Scale Purchase falls within cases where it is clear that the purchase will cause damage from which it will be difficult for the Company to recover or cases where the interests of the Company's shareholders as a whole will suffer significant damage, and then whether to take countermeasures against the Large-Scale Purchase, whether to hold a general meeting of shareholders to confirm the shareholders' intent in determining whether to take such countermeasures and whether to suspend their implementation, the Company shall establish a special committee as an organization independent from the Board of Directors, and the Board of Directors of the Company shall give maximum respect to the committee's recommendation. The special committee shall consist of three (3) members who shall be selected from among outside directors, outside audit & supervisory board members, company managers with a wealth of management experience, persons thoroughly familiar with investment banking, attorneys, certified public accountants, tax accountants, academics, or other persons with similar qualifications. A summary of the rules of the special committee is found in Appendix 4, and the names and brief histories of the members of the special committee following the continuation of the Policy are as described in Appendix 5.

When a decision is made to implement countermeasures, to or not to hold a general meeting of shareholders to confirm the shareholders' intent, or to suspend the implementation of countermeasures,

the Board of Directors shall always consult with the special committee and receive its recommendation. The special committee may, at the expense of the Company, obtain the advice of third parties (including financial advisors, certified public accountants, attorneys, consultants and other experts) who are independent from the management team of the Company, or request the attendance of the Company's directors, audit & supervisory board members, employees, etc. at meetings of the special committee and request explanations concerning necessary information. The special committee shall deliberate and form resolutions and, based on the contents of those resolutions, present their recommendation to the Board of Directors of the Company. When judging whether to implement countermeasures, whether to hold a general meeting of shareholders to confirm the shareholders' intent in determining whether to take such countermeasures and whether to suspend the implementation of countermeasures, the Board of Directors shall give maximum respect to the special committee's recommendation.

#### (5) Procedure for the confirmation of the shareholders' intent

If the Board of Directors of the Company has determined, after giving maximum respect to the recommendations of the special committee, that whether to implement countermeasures should be determined through the procedure for the confirmation of the shareholders' intent, the Board of Directors of the Company may hold a general meeting of shareholders to confirm the shareholders' intent (hereinafter "general meeting of shareholders to confirm the shareholders' intent"). In cases where the large-scale purchaser complies with Large-Scale Purchase rules and the implementation of countermeasures is proposed solely on the grounds that the Large-Scale Purchase falls under the categories listed in (2)(iii) above, a general meeting of shareholders to confirm the shareholders' intent shall always be held to confirm the intent of the shareholders regarding whether to implement countermeasures unless it is extremely difficult to hold such a meeting. In conjunction with the holding of a general meeting of shareholders to confirm the shareholders' intent, the Board of Directors of the Company may also solicit the shareholders of the Company on the exercise of voting rights at the general meeting of shareholders to confirm the shareholders' intent in order to prevent damage to the corporate value and the common interest of shareholders of the Company. The convocation procedure and the voting methods of the general meeting of shareholders to confirm the shareholders' intent shall be the same as those of the ordinary or extraordinary general meeting of shareholders, which are based on laws and regulations and the Articles of Incorporation of the Company, and the Board of Directors of the Company shall obey the resolution of the general meeting of shareholders to confirm the shareholders' intent on whether to implement countermeasures.

#### **4. Impact on shareholders and investors of the Company**

While it is not assumed that there will be circumstances where shareholders of the Company (except for any large-scale purchasers) may be caused economic damage or deprived of any right due to the implementation of countermeasures based on the Policy, the Board of Directors of the Company shall timely and appropriately disclose information in accordance with relevant laws and regulations and financial instruments exchange rules when it decides to take concrete countermeasures.

In the event that a gratis allotment of subscription rights to shares is undertaken as one of the possible countermeasures, an allotment of subscription rights to shares shall be made to shareholders recorded in the final shareholder registry on the record date separately determined at a meeting of the Board of Directors of the Company and publically announced, in accordance with the number of shares held. Thus, shareholders need to be recorded in the final shareholder registry on the said record date. Additionally,

shareholders need to complete payment of a fixed sum within the prescribed period in order to exercise the subscription rights to shares and obtain those shares. However, in the event that the Company undertakes the acquisition of subscription rights to shares in accordance with acquisition terms that allow the Company to acquire subscription rights to shares in exchange for shares of the Company, shareholders who hold the subscription rights to shares subject to the said acquisition by the Board of Directors of the Company may receive the grant of the Company's shares as consideration for the acquisition of the subscription rights to shares by the Company without the need for the payment of monies. Separate notification of the details of these procedures shall be made in accordance with laws and regulations and financial instruments exchange rules when in fact subscription rights to shares are issued or acquired.

Even though a resolution has once been passed for the gratis allotment of subscription rights to shares, there may be cases where the Company, in accordance with 3. (3), suspends the gratis allotment of subscription rights to shares during the period up to the effective date for the gratis allotment of subscription rights to shares or, acquires the subscription rights to shares without consideration up to the day immediately prior to the first date of the exercise period of the subscription rights to shares following the effective date for the gratis allotment of the subscription rights to shares. In these events, there is a possibility for corresponding fluctuation in the stock price of the Company's shares. For example, in the event that after the determination of shareholders who should receive a gratis allotment of subscription rights to shares (on or after the ex-rights date), the Company acquires the subscription rights to shares without consideration and does not issue new shares, no dilution of the per-share value of the shares shall arise and, therefore, investors who traded in the Company's shares on the premise that dilution of the value of the Company's shares would occur risk suffering a loss due to fluctuations in the stock price.

##### **5. Effective term of the Large-Scale Purchase rules**

In the event that the approval of the shareholders is obtained at this Ordinary General Meeting of Shareholders with respect to the continuation of the Policy, the effective term of the Policy shall be up to the conclusion of the Ordinary General Meeting of Shareholders for the last fiscal year ending within three (3) years from the date of this Ordinary General Meeting of Shareholders, and this shall apply in successive terms thereafter. In the event that the Board of Directors of the Company determines to continue the Policy, an announcement to that effect will be promptly made. The Board of Directors of the Company also intends, from the perspective of protecting the interests of shareholders as a whole, to occasionally reassess the Policy as needed in consideration of development and revisions to relevant laws and regulations including the Companies Act and the Financial Instruments and Exchange Act.

Even during the effective term, the Policy shall be abolished at the point in time when a resolution is passed to abolish the Policy in a general meeting of shareholders or when a resolution is passed to abolish the Policy at a meeting of the Board of Directors of the Company. Additionally, even during the effective term of the Policy, there may be cases where the Board of Directors of the Company revises the Policy within the scope of the intent of the approval given at the general meeting of shareholders.

##### **6. Not a dead-hand takeover defense measure or slow-hand takeover defense measure**

The Policy is one that may be abolished by the Board of Directors consisting of directors that were elected at a general meeting of shareholders of the Company. It is possible for a person who has purchased the Company's share certificates, etc. in bulk to nominate directors at a general meeting of shareholders of the Company and abolish the Policy through the Board of Directors consisting of such

directors. Accordingly, the Policy is not a dead-hand takeover defense measure (a takeover defense measure in which its implementation cannot be stopped even by replacing a majority of the members of the Board of Directors). Furthermore, the term of office of directors of the Company is one (1) year, meaning the Policy is not a slow-hand takeover defense measure (a takeover defense measure in which the replacement of the members of the Board of Directors cannot occur all at once and therefore it takes time to stop its implementation).

**7. Satisfying the requirements of the guidelines regarding takeover defense measures**

The Policy satisfies the three principles (the principle of protecting and enhancing corporate value and shareholders' common interests, the principle of prior disclosure and shareholders' intent, and the principle of ensuring necessity and reasonableness) set forth in the "Guidelines Regarding Takeover Defense for the Purpose of Protection and Enhancement of Corporate Value and Shareholders' Common Interests" jointly released by the Ministry of Economy, Trade and Industry and Ministry of Justice on May 27, 2005.
