

A new name for a company - Oji Fibre Solutions

Today, one of our major members of Oji Group, Carter Holt Harvey Pulp, Paper and Packaging announces a change of name to Oji Fibre Solutions.

The new name reflects Oji's commitment to transcend traditional boundaries as captured by the group's global catch phrase: "Beyond the Boundaries". Oji Fibre Solutions looks beyond geographies, beyond capabilities and beyond pulp and paper.

Oji Fibre Solutions is a leading softwood fibre-based forest products businesses producing a range of kraft pulps, container board and packaging products (e.g. for dairy and horticulture industries). The group includes three pulp and paper facilities, packaging operations in New Zealand and Australia, the Fullcircle waste paper collection business and the Lodestar logistics operation. Its export markets include China, the US, South Africa, Southeast Asia, South Asia and Australia.

The new name follows our acquisition of the business last year, jointly with Innovation Network Corporation of Japan (INCJ).
